PROFESSIONAL SUMMARY

Data Analytics Engineer building end-to-end business intelligence (BI) solutions: data modeling and T-SQL in Microsoft SQL Server, ETL pipelines in SSIS and Python, SSAS Tabular models with DAX, and interactive Power BI dashboards for KPI and target reporting. Automates business processes with Microsoft Power Platform (Power Automate, Power Apps, Dataverse) and Azure. Promoted from Junior to Mid-Level within 12 months. Combines a Mechanical Engineering degree with a Back-End Software Engineering specialization to deliver production-grade data pipelines and automation that run unattended.

CORE COMPETENCIES

ETL / Data Pipelines · Data Modeling · Data Warehousing · SQL Development · Power BI Dashboards · DAX · KPI Reporting · Data Visualization · Data Cleaning & Validation · Exploratory Data Analysis (EDA) · Data Integration · Workflow & Process Automation · Web Scraping & Browser Automation · Stakeholder Management · Requirements Gathering

PROFESSIONAL EXPERIENCE

Andalusia Health for Business Solutions (AHBS) | Alexandria, Egypt

Data Analytics Engineer (Mid-Level I) | Sep 2026 – Present

Junior Data Analytics Engineer | Sep 2025 – Sep 2026

- Built a Python ETL pipeline that extracts measures from a SQL Server Analysis Services (SSAS) Tabular model via DAX queries, resolves Dataverse lookup IDs through multi-table joins, and upserts results into Dataverse in a single automated script, authenticated securely as an Azure service principal (Azure app registration).
- Delivered a complete end-to-end BI solution: source data modeling in Microsoft SQL Server (T-SQL), ETL orchestration in SSIS, and a Power BI dashboard for business users and decision-makers.
- Re-engineered a legacy Selenium web scraping and automation service into Python and Playwright with rebuilt logic, enabling continuous 24/7 operation with response times in seconds; used AI-assisted development (Claude Code) throughout the migration.
- Replaced a manual monthly target approval process with a Power Automate workflow and embedded Office Scripts (Excel), giving executive (C-level) stakeholders a sequenced, auditable sign-off and a single source of truth for approved targets.
- Developed the Egypt edition of the target-proposal Power Apps canvas app, adapting the existing KSA solution to local hierarchy and business rules and feeding validated data directly into the approval workflow.

Freelance Data Analyst | Hsoub Platform | Remote | Jan 2023 – Dec 2023

- Delivered end-to-end data analysis projects for clients, including stock portfolio revenue and loss analysis against expected performance, and data cleaning and visualization of open-ended survey responses.
- Owned project scoping, requirements gathering, analysis and client communication from kickoff to delivery.

TECHNICAL SKILLS

Business Intelligence: Power BI, DAX, SQL Server Analysis Services (SSAS Tabular), KPI dashboards, target reporting

Data Engineering: SQL (T-SQL, MySQL), Microsoft SQL Server, SSMS, SSIS, ETL design, data modeling, data cleaning

Power Platform & Cloud: Power Automate, Power Apps (canvas), Dataverse, Office Scripts, Microsoft Azure (app registration, service principals)

Programming & Tools: Python (pandas, NumPy, Matplotlib, Seaborn), Playwright, Selenium, Flask, C, Git, GitHub, Linux, Microsoft Excel (advanced)

EDUCATION

Software Engineering, Back-End Specialization | ALX Africa / Holberton School | 2023 – 2025

Bachelor of Engineering (BE), Mechanical Engineering | Alexandria University, Faculty of Engineering | 2014 – 2021

CERTIFICATIONS

ALX Back-End Software Engineering (ALX Africa, 2025) · Google Data Analytics Professional Certificate (Coursera, 2022) · Project Management, UX Design, Digital Marketing & E-commerce (Coursera, 2022)

PROJECTS

- **Python / Data Analysis:** Nobel Prize Laureates 1901–2023, LA Crime Analysis, NYC Schools SAT Scores (pandas, EDA, data visualization)
- **SQL:** Layoffs Dataset Data Cleaning and Exploratory Data Analysis in MySQL
- **Software:** QuizItNow (Python Flask web app) · Maze (3D raycasting engine in C / SDL2)

LANGUAGES

Arabic (Native) · English (Professional Working Proficiency)
