

Mahmoud Ismail

Data Analytics Engineer | Business Intelligence (BI) Developer | ETL & Data Engineering | Power BI, SQL, Python

Alexandria, Egypt | +20 128 224 4419 | mahmoudismailabdelrazek@gmail.com

LinkedIn | GitHub | Portfolio

SUMMARY

Data Analytics Engineer delivering end-to-end business intelligence (BI) solutions: data modeling and T-SQL in Microsoft SQL Server, ETL pipelines in SQL Server Integration Services (SSIS) and Python, SQL Server Analysis Services (SSAS) Tabular models with DAX, and Microsoft Power BI dashboards for KPI reporting. Automates business processes with Microsoft Power Platform (Power Automate, Power Apps, Dataverse). Combines a Bachelor of Engineering in Mechanical Engineering with ALX Africa – Holberton School back-end software engineering.

SKILLS

Business Intelligence: Microsoft Power BI, DAX, SQL Server Analysis Services (SSAS Tabular), Dashboards, KPI Reporting, Data Visualization

Data Engineering: SQL, T-SQL, MySQL, Microsoft SQL Server, SQL Server Management Studio (SSMS), SQL Server Integration Services (SSIS), ETL, Data Pipelines, Data Modeling, Data Integration, Data Cleaning, Data Validation

Automation & Apps: Microsoft Power Automate, Microsoft Power Apps (Canvas Apps), Microsoft Dataverse, Office Scripts, Microsoft Azure (App Registration), Workflow Automation

Programming & Tools: Python, C, pandas, NumPy, Matplotlib, Seaborn, Flask, Playwright, Selenium, Web Scraping, Git, GitHub, Linux, Microsoft Excel, Google Sheets

Professional: Exploratory Data Analysis (EDA), Requirements Gathering, Stakeholder Management, AI-Assisted Development (Claude Code)

Languages: Arabic (Native), English (Professional Working Proficiency)

EXPERIENCE

Andalusia Health for Business Solutions (AHBS) | Alexandria, Egypt

Data Analytics Engineer (Mid-Level I) | Sep 2026 – Present

Junior Data Analytics Engineer | Sep 2025 – Aug 2026

- Built a Python ETL pipeline that extracts measures from an SSAS Tabular model using DAX queries, resolves Dataverse lookup IDs through multi-table joins in pandas, and upserts the results into Dataverse in one automated script, authenticated as an Azure service principal (Azure app registration).
- Delivered an end-to-end BI solution: source data modeling in Microsoft SQL Server (T-SQL), ETL orchestration in SSIS, and an interactive Power BI dashboard for business users and decision-makers.
- Re-engineered a legacy Selenium web scraping and automation service in Python and Playwright with rebuilt logic, enabling continuous 24/7 operation with response times in seconds; used AI-assisted development (Claude Code) throughout the migration.
- Replaced a manual monthly target approval process with a Power Automate workflow and embedded Office Scripts (Excel), giving executive (C-level) stakeholders a sequenced, auditable sign-off and a single source of truth for approved targets.
- Developed the Egypt edition of the target-proposal Power Apps canvas app, adapting the existing KSA solution to local hierarchy and business rules and feeding validated data directly into the approval workflow.

Freelance Data Analyst | Mostaqil & Khamsat (Hsoub platforms) | Remote | Jan 2023 – Dec 2023

- Stock Portfolio Revenue and Loss Analysis** (Khamsat, Nov 2023 – Dec 2023): analyzed client-provided stock portfolio data in Microsoft Excel to assess actual versus expected revenue and losses, and delivered insights that informed the client's decisions.
- Tweet Questionnaire Data Analysis** (Mostaqil, Jan 2023): analyzed and summarized questionnaire responses in Google Sheets, provided insights to support the client's objectives, and built data visualizations to present the findings.
- Owned project scoping, requirements gathering, analysis and client communication from kickoff to delivery.

EDUCATION

Software Engineering Program, Back-End Specialization | ALX Africa – Holberton School | 2023 – 2025 (9-month foundation + 3-month back-end specialization)

Bachelor of Engineering (B.Eng.), Mechanical Engineering | Alexandria University, Faculty of Engineering | 2014 – 2021

CERTIFICATIONS

Google Data Analytics Professional Certificate (Coursera, 2022)

Google Project Management Certificate (Coursera, 2022)

Google UX Design Certificate (Coursera, 2022)

Google Digital Marketing & E-commerce Certificate (Coursera, 2022)

PROJECTS

- Python Data Analysis** (pandas, NumPy, Matplotlib, Seaborn): Nobel Prize Winners 1901–2023, Crime in Los Angeles, NYC Public School SAT Scores, Netflix Movie Analysis
- SQL (MySQL):** Layoffs Data Cleaning and Exploratory Data Analysis
- Microsoft Excel:** Data Cleaning and Analysis with Excel
- Software:** QuizItNow (Python, Flask), Maze (3D raycasting engine in C, SDL2)
